

Cabin Gas Plant

Thank You

Thank you to all the people who took an interest in, and provided input into, the Cabin Gas Plant Environmental Assessment and Oil and Gas Commission processes over this past year.

We believe in supporting our long-term relationships with the Fort Nelson community, and we know sharing information remains important as we move into the future together. We would like you to know:

- Encana was granted an Environmental Assessment Certificate for Cabin Gas Plant on January 28, 2010. The Minister of Environment and Minister of Energy, Mines and Petroleum Resources granted the certificate after considering the review led by B.C.'s Environmental Assessment Office. The certificate includes the obligation for Encana to comply with 60 legally binding commitments developed throughout the environmental assessment process.
- Encana received its Oil and Gas Commission permits for Cabin Gas Plant on March 12, 2010

Schedule chart

Clearing and grading
Spring 2010

Site construction begins
Summer 2010

Complete construction
Summer 2012

Start operation
Fall 2012

This construction schedule is expected to generate an estimated total of 267 person-years of direct, full-time employment.

Employment and contract opportunities

If you are interested in employment or contracts associated with Cabin Gas Plant, Encana is posting all its employment and contract needs through Energy Services BC. As site work progresses, Encana's major contractors for Cabin Gas Plant will also post job opportunities on the Energy Services BC website.
